

BECOME A Power A Clean Future Ohio COMMUNITY TODAY

Power a Clean Future Ohio (PCFO) is a nonpartisan coalition that works with Ohio communities to develop and implement proven clean energy & climate solutions. We are committed to reducing carbon emissions throughout Ohio in big and small ways that make sense for each local community. Become a PCFO Community to gain access to free resources such as our Technical Assistance Team and join our growing group of leading communities.

OUR GOALS

Reduce the carbon footprint of local communities across Ohio.

Implement equitable policy solutions supported by local communities.

Attract clean energy development to the state to create careers for Ohioans.

Reduce energy costs for cities, businesses, and residents.

THE PCFO TECHNICAL ASSISTANCE TEAM IS MADE UP OF PROFESSIONALS WITH EXPERTISE IN ENERGY POLICY AND WILL PROVIDE PCFO COMMUNITIES CRITICAL PLANNING TOOLS:

- Consulting to build your sustainability or climate action plan
- Creation of a fleet inventory & assessment to support electric vehicle adoption
- Evaluation of your tree canopy and its economic and environmental benefits
- Equity coaching sessions to ensure every member of your community has access to clean energy
- Creation of a greenhouse gas inventory to investigate where you should invest time and resources
- Recommendations to enhance the solar market in your community
- Technical assistance and campaign support to learn more about community choice aggregation
- Consulting services focused on energy efficiency programming and municipal benchmarking
- Federal infrastructure grant applications support through IGAP – scoping, research, and review

NOT YET A PCFO COMMUNITY?

Become a PCFO Community today by passing a resolution to join a growing group of Ohio cities and counties working to build a clean energy future for all Ohioans. To learn more contact Joe Florida (Executive Director) at admin@poweracleanfuture.org
